

Candidate Profiles of available
Skilled Trades, Technical, Engineering & Plant
Management Personnel

Trans-United Consultants Ltd.
Serving Industry across Ontario & World Wide since 1980

Contact Brian de Lottinville, Partner to arrange interviews

email: bdelottinville@trans-united.net

tel: 905-632-7176 ext. 203

website: <http://www.trans-united.net>

Permanent Placement

Ask about our candidate guarantee and competitive fees. There is **NO FEE** for our services until a referred candidate is hired.

Direct Contract

The referred candidate is placed on the client temporary employee payroll or hired direct by the client as a sub contractor.

Email Communications Permission!

In accordance with Canada's CASL (anti-spam law), Trans-United Consultants must transition over from an opt-out to an opt-in client email program. The law requires that we obtain your consent or opt-in, to continue emailing you the Candidate Profiles, a value added, free service from Trans-United Consultants.

To continue or discontinue receiving the Candidate Profiles, please click on jtrain@trans-united.net and on the Subject line specify Continue or Discontinue Profiles and your Province. The opt-in does not apply to any recipient who has already consented to receive the Candidate Profiles.

- [CNC Programmer](#), Machine-Tool Technical College (Program, Set-up, Operate CNC Machinery), Technical Institute (Automation of Production Process), (knowledge of Mastercam programming for mill 3-5 axis & Lathe, create process & operation sheets, fixture and tooling design, create CNC programs and work with QC for part production quality), Salary \$75K/year - aor 204

- Machine Setup Technician / Injection Moulding, Injection Moulding, Machine Setup Technician (College), (injection moulding setup for plastics and progressive moulded products), Salary \$44K/year plus - bss 204
- Distribution / Shipping Manager, Logistics Management College Diploma, (managed distribution employees including drivers, warehouse personnel, order desk, dispatchers, full pick/pack operations, all inventory including raw materials. Experience in Paper Products, Fuel/Energy, Baked Goods and Alcoholic Beverages), Salary \$85K/year – cal 203
- Health & Safety Specialist, Occupational Health & Safety Diploma, Bachelor of Science Degree in Physical Science, (conducted occupational hygiene monitoring (noise, indoor air quality, temperature & airborne hazards), created Occupational Health & Safety Management systems and facilitated related root cause investigations), Salary \$48K/year - dll 203
- VP of Manufacturing Operations / Plant Maintenance, Masters Degree in Electrical Engineering, Masters Degree in Economics & Econometrics, License Industrial Electrician 442A, Diploma Industrial Mechanic Millwright, PLC Certificate, (direct all plant personnel, ensuring safety of staff and quality manufacturing of client products within established schedules, budgets and procedures), Salary \$100K/year plus - evk 203
- Mechanical Design Project Engineer / Bilingual, Bachelor of Science Mechanical Engineering, (extensive experience in design/project engineering taking specifications of heavy custom projects from conception to completion, ventilation systems, industrial plant fan manufacturing, fluid dynamics and heat transfer), Salary \$90K/year - fms 203
- Aerospace / Mechanical Engineer, Master of Science Mechanical Engineering, (Advanced Fluid Mechanics & Heat Transfer), Bachelor Science Mechanical Engineering (Thermodynamics & Turbomachinery), (in depth knowledge of avionics, aerodynamics, flight dynamics, controller programming, servos, autopiloting and electric motors), Salary \$75K/year plus - gaa 203
- CAD Operator (Mechanical / Piping / Electrical / Civil), Bachelor of Science Civil Engineering, (CAD experience includes compressors, valves, steel & heating

furnaces, piping / pumping stations, lighting & power systems, electrical single line diagrams, schematics, water and sewer systems / grading for subdivisions and parking lots. Using AutoCAD 3D, Civil 3D, MicroStation V8 3D, Civil 3D), Salary \$65K/year - hsh 203

- Electrical Controls Programmer / Automotive Industry, Masters of Electrical Engineering, (programming ladder logic principles including sequencers and analog controls for I/O systems, program and interface HMI screens for projects, problem solving capabilities to ensure quality performance of Robotic Systems), Salary \$58K/year - isr 203
- PLC Programmer / Automation, Electrical Engineering Technology (College), (programming a combination of robots (Fanuc / Motoman), PLC's (Allen Bradley / Omron / Mitsubishi) and HMI, PLC projects to improve productions lines), Salary \$68K/year - jmd 204
- Industrial Electrician, Industrial Electrician 442A Red Seal, Electrical Engineering Technologist Diploma (Power & Control Systems), (install, examine, replace or repair electrical fixtures, wirings, receptacles, lighting fixtures, exhaust / ventilation fans, dryers, cable, AC/DC motors and drives, transformers, power supplies, knowledge of PLC's / I.O. control systems), Salary \$65K/year plus - kag 203
- Millwright, Journeyman Millwright Ticket, Mechanical Drafting & Design (College), Training in: Fall Protection, Confined Space Entry, Rigging, Overhead Crane, (repair, maintenance and installation of motors, pumps, gearboxes, compressors, power transmissions, hydraulic & pneumatic system and laser equipment alignment), Salary \$65K/year - lwm 220
- Instrument Technician, Industrial Instrumentation Diploma, Red Seal Journeyman Instrument Technician Inter Provincial Certificate 447A CFQ, (experience with all aspects of instrumentation, pre-planning to pre-commissioning, troubleshooting to verifying, calibration to installation), Salary \$75K/year - mdb 215

- Energy Engineer / Electrical Engineering, Degree in Electrical Engineering, Training in: Energy Management & Audit, Power Conversion Technology, Automation & Instrumentation, (conducted energy audits, in different levels, to evaluate energy use and identify conservation and cost reduction measures in industrial and commercial facilities. Energy data collection, metering systems and energy saving calculations), Salary \$72K/year - nrr 250
- Electrical Engineering Technology, Diploma in Electrical Engineering Technology (College), Diploma in Electrical Engineering Technician (College), Electromechanical Engineering (College), (skills in power systems, electrical design, instrumentation PLC's and machines, pneumatics and perform maintenance on assigned test equipment), Salary \$56K/year plus - ojs 220
- Logistics / Supply Chain Manager / Manufacturing, Certified Production Inventory Management (CPIM), College Diploma Production Management, College Diploma Human Resource Management, Six Sigma Greenbelt, Certified ISO Auditor, Safety Health & Law, (managed / mentored / supervised Logistic teams , designed and implemented KPIs to monitor performance, RFP/RFQ processes / vendor selection, contract negotiations, domestic and international shipping, receiving, imports, exports and customs clearance), Salary \$72K/year plus - pwl 203
- Transportation / Distribution / Warehouse Manager, P. Log – Professional Certification in Supply Chain Logistics, Masters in Business Administration (Operations Management), Bachelor of Commerce (Accounts / Finance), (hands-on experience with LTL / TL pricing analysis, transportation planning, load building and routing tools to plan inbound and outbound shipments. Warehouse handling and disposition of materials and inventory accuracy, monitor safety, physical security and operational metrics / KPI's), Salary \$75K/year plus - qds 203
- Quality Assurance Engineer / Automotive / Aerospace / Medical / Manufacturing Industries, Bachelor Degree in Material (Industrial Metallurgy Engineering), ASQ Certified Quality Engineer (CQE), ASQ Certified Six Sigma Green Belt, (conducted internal audits to ensure quality control standards and procedures are implemented. Knowledge of APQP, PPAP, FMEA, Control Plan, 8D, root cause analysis, CAP, ECR, ISO-TS16949, ISO-9001, AS-9100), Salary \$88K/year plus - rrj 220

- Quality Assurance / Food Industry, Bachelor Degree specializing in Food Science and Technology, Training in Food Safety, Cleaning & Sanitation, Implementing / Auditing Quality Systems, (SPC) Statistical Process Control, Food Packaging Innovation & Research, Acidified Dairy Products Microbiology, (experience in Quality Assurance, Food Safety and Sanitation in product Quality and Process Improvement), Salary \$70K/year - shb 204
- Maintenance Manager, Bachelor of Science in Electrical Engineering, Industrial Millwright Red Seal, Training in: Six Sigma Certified White Belt, PLC Maintenance, Troubleshooting, Joint Health & Safety Certified, (implement and manage the plant maintenance programs based on best practices with an emphasis on planning / scheduling and preventative / predictive maintenance. Direct and supervise all mechanics, trades, contractors and electricians to ensure smooth production operations), Salary \$90K/year plus - trg 215
- Production Supervisor / Automotive / Plastics, Certificate in Operations Management, Certificate in Tool & Die Studies, (supervise employees on the assembly / production line, trouble shoot and repair quality issues and dealing with customers & suppliers on quality concerns. Schedule jobs to ensure work is complete on time and efficiently. Perform daily safety and equipment audits), Salary \$70K/year plus - udr 215
- Senior Production Supervisor / Injection Molding / Paint / Stamping, College Diploma in Quality Assurance, College Diploma in Management & Development Program, Training in: Lockout / Tagout, 8D and Correction Action, TS16949, GMP & HACCP, FMEA, PPAP , APQP, SPC, (production supervisor with manufacturing experience in a union & non-union environment with Continuous Improvements, Lean Manufacturing and GMP manufacturing concepts. Maintain a smooth flow of Production Parts of the highest quality, customer delivery dates are met and ensure production targets are adhered to daily), Salary \$75K/year - vtk 204
- Operations / Production Line Manager, Mechanical Engineering Technology (3 year College), General Machinist & Machine Repair Apprenticeship College Program, Certified Machinist, CNC Programmer Qualifications, (supporting and implementing operating plans ensuring adherence to safety, quality, costs and schedule. Continuously improve business/production processes to ensure best practices in quality, cost and labour / client relations), Salary \$75K/year plus - wbk 280

- Business & Operations Management (Waste Processing Facilities), Environmental Science College Diploma, Completed Millwright Apprenticeship Program, (management background encompassing areas such as unit operations, staff development, safety management, strategic planning and regulatory compliance. Extensive experience with industrious environmental services / waste processing and bulking facilities), Salary \$95K/year plus - xrb 203
- Civil Engineer, Master of Engineering in Civil Engineering (Construction Management), Certificate in AutoCAD Fundamentals, (involved with shop CAD drafting, cost estimation, procurement and civil / site project management. Thorough understanding of lumber, steel and concrete applications for construction), Salary \$60K/year plus - yms 203
- Territory Sales Manager / Business Development (Manufacturing), Tool & Die College Program, The Construction Institute (Blue Print Reading / Estimation), (developing new territories, Tracking business using CRM, new business development, farming current accounts and problem solving Customer needs and concerns. Working with contractors, designers and engineers on client projects. Conducting outgoing Sales and Cold Calls to reach decision makers. Providing sales quotes on spec while maintaining company margins / costs / profits), Salary \$65K/year plus - zcc 203

Please contact Brian de Lottinville at bdelottinville@trans-united.net to arrange interviews or to fill job vacancies. To have an additional or alternate company contact receive the Personnel Profiles, please send name, job title, company and e-mail address information to John Train: jtrain@trans-united.net.
